

# GROMATEX™

**A brand  
you can  
trust!**

**Gromatex is a manufacturer of slurry pump spares and slurry hose.**

Manufactured in the UK, this product offers the ultimate in toughness and abrasion resistance. This has the potential to give incredible cost savings, both in terms of the replacement costs and, perhaps more importantly, in reduced downtime.

Gromatex have developed their range exclusively for the pump market specialising in slurry handling applications across aggregates and mining. We manufacture both elastomer wear parts and slurry hosing that have been trialled in some of the most abrasive applications across the globe.

Ultimately, our aim is to reduce our customer's maintenance and downtime anxiety and this drives us on to create ever tougher and more resilient products.

# GROMATEX™

**A brand  
you can  
trust!**

## **Key Points:**

- Premium quality end cut hose
- Natural rubber liner for maximum wear resistance
- Manufactured in the UK to high standards
- Up to 10 bar max line pressure
- High strength aluminium split clamp flanges for ease of installation
- 4", 6" and 8" hose in stock for immediate dispatch
- Continuous lengths available up to 60m long
- All common sizes in stock - we will cut to your requirements - no minimum order
- Can be used for pumping powder
